

How to apply a dock "skin"

Friday, 27 November 2009 23:44

To extract the skin you will need [7zip](#) , or [winzip](#)

- 1.Once you extract the file, Browse to My Computer > Local Disk C:/ > Program Files > RocketDock > Skins.
- 2.Paste the skins folder at said location.
- 3.Right click on the dock, and select "Dock Settings."
- 4.Select the "Style" area
- 5.On the drop down menu labled "Theme," select "Skin name here"
- 6.Click "OK."
- 7.Enjoy your new RocketDock theme.
