

Welcome today we will be teaching you how to make a Photoshop icon with [Adobe® Photoshop® CS4](#)

What we will end up with.

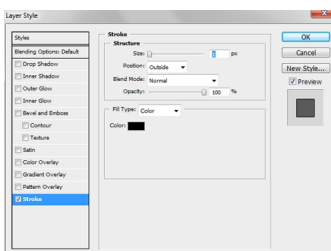

1) Open a new document that is 256x256. **File> New**

2) Use the rounded rectangle tool and drag a square out. Call this base. *Hint- remember to hold **SHIFT** to make it a perfect square*

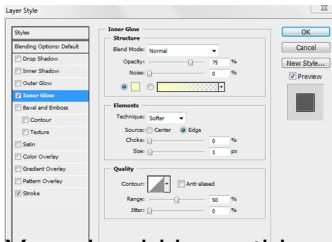

3) Set the color to a nice blue I used #005cb2.

4) Open up the layer styles and apply these settings

How to make a Photoshop Icon

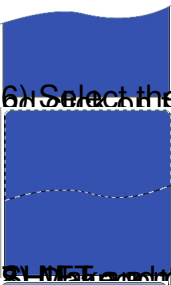

Saturday, 05 December 2009 18:23

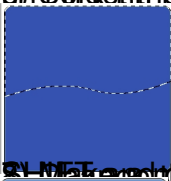

You should have this now

5) Using the pen tool, You want to make a make a small wave.

6) Select the base layer, hold **CTRL** and click on the thumb nail, now hold **CTRL+ATL+SHIFT** a

7) **CTRL+ALT** and drag down to the 40% of the use the gradient tool as make it white to transparent. Hold

8) Use the type tool set the font to Myriad Pro Semibold, type Ps and you are done.
